

Structure characters

J8AMP series ,snap action type protector,are sensitive to current and temperature. they are easy to be installed with big contact capacity.

Applications

J8AMP series are widely used against over current and over temperature in AC & DC motor (especially large power), different kinds pumps, heating electrical elements ,Sodium Lamps, metal halide rectifier, fluorescent ballast, transformer, house-holding appliances.

Parameters

Open temperature: $60^{\circ}\text{C} \sim 160^{\circ}\text{C} \pm 5^{\circ}\text{C}$ or $\pm 8^{\circ}\text{C}$ (according to customer's requirement)

Rated voltage:DC24V/AC240V

Trip current:10~100A(according to customer's requirement)

Trip time:4S~10S (under ambient temperature of 25C)
