

## Structure characters

JRMH series are sensitive to temperature ,especially for low temperature control. The high quality bimetal is sensitive element in product. They are enclosed by metal case and will reset themselves.

## Applications

JRMH series are Suitable for temperature control and protection against over-temperature in electrical blanket,heating pad,battery packs of cordless power tools, personal computer,PCB and low voltage electrical appliance etc.

## Parameters

Open temperature:  $-20^{\circ}\text{C}\sim 150^{\circ}\text{C} \pm 5^{\circ}\text{C}$  (according to customer's requirement)  
Reset temperature:  $1\sim 2^{\circ}\text{C}$  lower than open temperature.  
Rated voltage: DV24V/AC120V  
Rated current: 6A or 10A
